Enrollment

JBC

(See IIBGB, JBCA, JBCB, JBCC, and JQKA)

Resident Students

A “resident student” is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are “homeless” as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Nonresident Students

Details concerning the enrollment and continued enrollment process for nonresident students may be found in board policy JBCC.

Military Students

Details concerning the enrollment and attendance of military students, as defined in state law, may be found in board policy JBCCD.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- Is also enrolled in a nonaccredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- requests to enroll part-time in the school district; and
- meets the age of eligibility requirements for school attendance.

Enrollment

JBC-2

District administrators shall make a good faith attempt to accommodate scheduling requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Part-time students, other than those specified previously in this policy may enroll with the administration's permission if they complete all paperwork in a timely fashion and are in attendance no later than _____. (Insert date) Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

Enrollment

JBC-3

If required by law, students placed in foster care or students who are homeless may be educated in their “school of origin” instead of the building corresponding to the assigned attendance area. (For definition of “school of origin”, see regulations for JBCA and JBCB.)

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal’s decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In {middle school/junior high} and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student’s documented past educational experiences and performance on tests administered to determine grade level placement.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

- 1) presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- 2) consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;
- 3) if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

- 2) the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and
- 3) the parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. Foster Care Student Regulations

To Aid In Implementation of Federal Law

NOTE: This document **MUST** be approved by board action to become policy. File with clerk, distribute to principals, and duplicate as necessary in district newsletters and other documents.

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will

JBCB FOSTER CARE STUDENT REGULATIONS

be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504

JBCB FOSTER CARE STUDENT REGULATIONS

accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student's educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child's preference, the parents' preference, the child's attachment to the school of origin, where siblings will be placed, and the availability of needed services. The "best-interest determination" may not be made based on transportation costs or funding.

District Foster Care Liaison

The "district foster care liaison" is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district's foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Name:

Position:

E-mail:

Address:

Telephone:

JBCB FOSTER CARE STUDENT REGULATIONS

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

- 1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;*
- 2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;*
- 3. Cost sharing between the school district of attendance and the school district where the student is living;*
- 4. Use of the district's Title I funds;*

JBCB FOSTER CARE STUDENT REGULATIONS

5. *Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;*
6. *Use of any available grant funds; and*
7. *[Other].*

Transportation Strategies

The following transportation strategies may be considered in achieving transportation to a student's school of origin:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

1. *Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;*
2. *Arranging transportation by a relative or another adult approved by DCF with whom the student has a relationship and whose existing commute aligns with the student's transportation need to the school of origin or a bus stop on a route to the school of origin;*
3. *Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation*

JBCB FOSTER CARE STUDENT REGULATIONS

with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);

- 4. Using existing intradistrict transportation options that allow students to be transported within the district, such as routes for students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);*
- 5. Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;*
- 6. Evaluating whether an IEP for a student receiving special education services will include transportation to the student's special education program at the school of origin as a related service;*
- 7. Contracting with a private transportation company, such as a taxi service, for the student's transportation needs;*
- 8. Using public transportation with a bus pass or transportation voucher;*
- 9. Adding a district transportation route; or*
- 10. [Other].*

Individual Transportation Plan

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps

JBCB FOSTER CARE STUDENT REGULATIONS

to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded.

When possible, and to allow for adequate consideration of the student's needs, individual transportation planning will begin in advance of placement changes and will occur in coordination with the consultation on the student's educational best interest.

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student's DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student's caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The District foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster

JBCB FOSTER CARE STUDENT REGULATIONS

care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

Plan Elements

The individual transportation plan may include:

- 1. A daily transportation strategy;*
- 2. One or more backup transportation strategies;*
- 3. Transportation strategies to allow participation in after-school and extracurricular activities;*
- 4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;*
- 5. Identification of who is responsible for each aspect of the transportation strategy;*
- 6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;*

JBCB FOSTER CARE STUDENT REGULATIONS

7. *For transportation strategies with multiple segments, sign off procedures to ensure that the student safely and successfully completes each segment;*
8. *A communication protocol between the District and DCF when transportation for a student is no longer needed; and*
9. *A regular review process for adjusting transportation strategies when circumstances change.*

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked to sign the plan.

Enrollment of Nonresident Students

JBCC

(See JBC, JBCA, JBCB, and JQKA)

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the nonresident enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

This policy does not apply to any virtual school, as defined by Kansas law, or to any school located on a military installation.

Any child who is experiencing homelessness shall be permitted to enroll in and attend the school district of origin or the school district of residence without application and acceptance through this policy.

Definitions

For the purposes of this policy, the following definitions apply.

"Homeless child" means a child who lacks a fixed, regular and adequate nighttime residence and whose primary nighttime residence is:

- A. A supervised publicly or privately operated shelter designed to provide temporary living accommodations, including welfare hotels, congregate shelters and transitional housing for the mentally ill;
- B. an institution that provides a temporary residence for individuals intended to be institutionalized; or
- C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

"Nonresident student" means a child of school age, pursuant to Kansas law, who resides in Kansas and is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

"Parent" means and includes natural parents, adoptive parents, stepparents, and foster parents.

"Person acting as parent" means:

- A. A guardian or conservator; or
- B. a person, other than a parent, who:
 - i. Is liable by law to maintain, care for or support the child;

- ii. has actual care and control of the child and is contributing the major portion of the cost of support of the child;
- iii. has actual care and control of the child with the written consent of a person who has legal custody of the child; or
- iv. has been granted custody of the child by a court of competent jurisdiction.

"Receiving school district" means a school district of nonresidence of a student who attends school in such school district.

"Sibling" means a brother or sister of the whole or half blood, adoptive brother or sister, a stepbrother or stepsister or a foster brother or foster sister.

Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;

Enrollment of Nonresident Students

JBCC-3

- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;
- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

On or before May 1st of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1st of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From January 1st through June 15th, district administration shall accept applications from nonresident students seeking to enroll in and attend the district in the next school year.

If the number of applications for a grade level in a school building is less than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, unless the nonresident student is deemed not in good standing.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select nonresident students deemed in good standing using a confidential lottery process. This process shall be completed on or before July 15th of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process on or before July 30th of each year.

Priority in Filling Open Seats

Regardless of capacity determinations, the following categories of students shall be allowed to enroll as if resident students if they are deemed to be in good standing by district administration:

- any child who is in the custody of the Department for Children and Families and who is living in the home of a nonresident student who transfers to the district; or
- any nonresident student who has a parent or person acting as parent employed by the district, while the parent or person acting as a parent remains employed by the district.

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students deemed in good standing to enroll. These students shall receive open seats without necessity of being selected through any open-seat lottery:

- Any sibling of a nonresident student who is enrolled in and attending school in the district or who is accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications; and
- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review based upon the considerations for determining good standing in this policy.

Prohibitions Regarding Open Enrollment Provisions of this Policy

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

Transportation of Students

Neither a resident school district nor a receiving school district shall be required to provide transportation to nonresident students unless otherwise required by applicable law. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which transportation may be provided by the district for nonresident students. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

Information Share with the Kansas State Department of Education

The superintendent shall annually submit, or have submitted, to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level, and whether the denials were based on capacity or in accordance with the policy's terms.

Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who were enrolled in and attending the district during school year 2023-2024, who were attending the district as a resident student in 2023-2024 but have since moved out of the district, or who have been accepted for enrollment by the school district on or after June 1, 2024, will be allowed to continue enrollment in the district as specified above. The district will not require parents of such students or adult or emancipated students to resubmit a new application each school year.

Determining Good Standing

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied enrollment or continued enrollment for not being in good standing. Nonresident student applicants for enrollment and nonresident

students already enrolled in and attending school in the district shall be evaluated by district administration to determine standing for enrollment or continued enrollment.

Students may be denied enrollment or continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the enrollment or continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied enrollment or continued enrollment based solely thereon.

- The nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;
- the nonresident student is not a Kansas resident;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun.
- the student has had three or more out-of-school suspensions in the current school year, excluding suspensions determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan; or
- the student has been given a long-term suspension or expulsion by a school district in the current school year.

Parents shall be informed of any administrative decision not to enroll or to discontinue enrollment of a nonresident student no later than June 1.

If district administration denies the enrollment application of a nonresident student due to the school district deeming the nonresident student as not in good standing, the parent or person acting as a

Enrollment of Nonresident Students

JBCC-7

parent of such student may appeal the decision to the board. A current nonresident student who is determined not to be in good standing shall not be entitled to the appeal process outlined herein.

Any student who has been denied enrollment or continued enrollment due to being deemed not in good standing may reapply for nonresident enrollment in subsequent school years.

Appeal Process

If a nonresident student's application for enrollment is denied because the student is determined not to be in good standing, the parent or person acting as a parent may appeal the administrative decision to the board.

If a parent or person acting as a parent wishes to appeal this decision, a written request for an appeal must be submitted to the clerk of the board within 10 days of receiving notice the student's application has been denied for lack of good standing. Such request shall include the individual's reasons for disagreeing with the administration's decision.

The board shall consider any appeal of these decisions and any supplemental documentation provided therewith at the next regularly scheduled board meeting following receipt of the request for appeal, and the board's designee shall notify the requestor of the result of the appeal in writing within 10 days of the board's decision thereon.

Enrollment of Out-of-State Students

If capacity for nonresident student enrollment remains after the aforementioned application, enrollment, and the disenrollment process has concluded, district administration may consider applications for enrollment submitted by students who are not Kansas residents. However, priority in enrollment shall be given to Kansas residents.

If a student who is an out-of-state resident is in good standing and has a parent or a person acting as a parent who is employed by the district, district administration may allow the student to enroll in and attend school in the district as if they were a resident of the district.

Enrollment of Military Students in Grades K-12

Residency within the district may be required for attendance if the district does not have open seats at the time of enrollment as determined by board policy JBCC and Kansas law.

Enrollment of Military Students in District Pre-K Programs

If the district offers a pre-kindergarten program, it shall enroll any military student in a pre-kindergarten program if the military student is eligible to participate in the program and the military student or the military student’s parent or person acting as a parent provides evidence that the military’s parent or person acting as parent will be stationed at a military installation in Kansas during the current or immediately succeeding school year. If the district has no open seats for the program, then the military student shall be placed on a waiting list for enrollment. Proof of address shall not be required at the time of enrollment, but proof may be required for attendance.

KASB Recommendation – 6/25

When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student's absence shall be published in the student handbook.

Excused/Unexcused Absences

The definition of "excused absence" includes the following:

- Personal illness;
- Health-related treatment, examination, or recuperation;
- Serious illness or death of a member of the family;
- Obligatory religious observances;
- Participation in a district-approved or school sponsored activity or course;
- Absences prearranged by parents and approved by the principal; and
- Students of active duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

Significant Part of a School Day

An absence of two or more hours in any school day shall be considered an absence for a significant part of the school day.

Truancy

JBE

(See AEB, IDCE, JBD, and JQ)

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made. The building principal (or ____) shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester, or seven unexcused absences in a school year, whichever comes first. Truancy shall not apply to students who have attained a high school diploma, a general educational development credential, or a high school equivalency credential. Exceptions also exist for students attending the Kansas academy of mathematics and science and for students who are part of a recognized church or religious denomination objecting to a regular public high school education under circumstances specified in state law.

For truancy purposes, being enrolled and continuously attending a public school; a private, denominational, or parochial school taught by a competent instructor for a period of time which is substantially equivalent to the period of time public school is maintained in the school district in which the private, denominational, or parochial school is located; or a combination of attendance in both a public school and a private, denominational, or parochial school may satisfy compulsory attendance requirements. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be given an unexcused absence for truancy accounting purposes considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student's parent(s) or guardian notifying them that the student's failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if:

- The student is regularly enrolled in and attending a program recognized by the board as an approved alternative educational program;
- the parent(s) or person acting as parent provides written consent to allow the student to be exempt from the compulsory attendance requirement and the student and the student's parent or person acting as parent attend the counseling session required by law and signs the appropriate consent and waiver form;
- the student is not subject to truancy law in accordance with law or this policy;

Truancy

JBE-2

- the child is regularly enrolled and continuously attending school as required by law and is concurrently enrolled in a postsecondary educational institution; or
- the student is exempt from compulsory attendance requirements pursuant to a court order.

Involvement of Law Enforcement

Law enforcement officers may return truant children to the school where the child is enrolled, to the child's parent or guardian, or to another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours during the school day they attend classes at a Regent's university, community college, technical college, vocational educational school, or Washburn University.

Searches of Property

JCAB

(See JCABB)

Principals are authorized to search property if there is reasonable suspicion that district policies, rules, or directives are being violated. In addition, all lockers shall be subject to random searches without prior notice or reasonable suspicion. All searches by the principal shall be carried out in the presence of another adult witness.

Whenever the principal is mentioned in this policy, it shall be construed to include the superintendent "or designated representative."

Search of Lockers

Lockers in the district schools shall be under supervision of the principal. Students shall have no expectation of privacy in any school locker.

The combinations and/or keys to all locker locks shall be in the possession of the principal and stored in a place designed to guard against unauthorized access or use. The principal may search any locker at any time without notice. Students shall not place locks, other than those approved by the school, on any locker.

Searches of Property

Any person other than the principal who wishes to search a student's locker or property shall report to the principal before proceeding. In no event shall any person be permitted to search a student's locker or property without the principal's consent unless the person has a valid search warrant authorizing a search.

If a law enforcement officer desiring to search a student's locker or property has a search warrant, the principal shall permit the search which shall be made in the presence of the principal.

Prohibited items found during the search shall remain in the custody of either the building principal or the law enforcement officer. If any items are turned over to law enforcement officials the principal shall receive a receipt for the items.

Use of Trained Dogs in Conducting Sweeps

At the request of the principal or on a schedule agreed upon by the service provider and the principal, law enforcement officers or licensed private agencies contracting with the school for such service, may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials, such as drugs, weapons, or other materials which may threaten the general health, welfare, and safety of the students and/or staff are present in the district parking lot, hallways, lockers, classrooms, and/or locker rooms. Students will never be sniffed by the dogs used to conduct the sweeps.

Principals are authorized to search students if there is reasonable suspicion that district policies, rules or directives are being violated. Strip searches shall not be conducted by school authorities. All searches by the principal shall be carried out in the presence of another adult witness.

The student shall be told why a search is being conducted. The student shall be requested to empty items such as, but not limited to, pockets, purses, shoulder bags, book bags and briefcases. The principal shall attempt to call the student's parent/s and may call law enforcement. Items which the principal believes may be connected with illegal activity shall remain in the custody of the principal unless the items are turned over to law enforcement officials. If the student refuses to cooperate, the principal may take disciplinary action and/or seek assistance from law enforcement.

If law enforcement assistance is present, further search of the student shall be with cooperation and assistance of law enforcement officials. The principal shall remain with the student and be present during any search of the student made by law enforcement officials on school property. The principal shall receive and file a receipt for items turned over to law enforcement officials.

If the principal believes a student is in possession of an object which can jeopardize the health, welfare or safety of the student or others, the student shall be removed to a safe location. This determination may be based on any information received by the principal or any member of the faculty or staff.

Written documentation of each search shall be maintained by the principal.

(Whenever the principal is mentioned in this policy, it shall be construed so as to include the superintendent “or designated representative.”)

Interrogation and Investigations

JCAC

(See EBC, GAAD, JCABB, JCEC and JHCAA)

Building administrators, school security officers, and/or others designated by the superintendent may conduct investigations and question students about violation of school rules, the student conduct code, and/or law. Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning and may request law enforcement, school resource officer(s), and/or school security officer(s) for assistance in conducting the investigations.

If there is reason to believe a violation of a criminal law has been committed, the building administrator, the superintendent's designee, and/or school security officer with authorization of the superintendent or the superintendent's designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law and/or board policy and may request further investigation of the alleged violation.

When a school resource officer or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer's own initiative and not at the behest of a building administrator or the designee of the superintendent, such officer will notify the building administrator and will make a reasonable attempt to contact the student's parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators and/or school security officers shall meet at least annually with local law enforcement officials to discuss the district's policies and rules regarding law enforcement contacts with the district and reporting of potential criminal acts at school or school activities.

Notification of Investigations Conducted by Law Enforcement Officers

When law enforcement officers initiate an investigation involving questioning of a student on a topic unrelated to a report of child abuse or neglect or to the identity of the student during school hours, the building administrator shall make a reasonable attempt to contact a parent, guardian, or representative of the student(s) prior to such questioning. Notification or attempted notification of a parent, guardian, or representative shall be documented by the administrator involved. If a student's parent, guardian, or representative is not present during such questioning of a student, the principal may be present unless otherwise specified in law or board policy.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any

Interrogation and Investigations

JCAC-2

investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student's parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to the building administrator for such purpose, or in demonstrated emergency situations. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer's superiors of the reasons for the refusal.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement, school resource officers, campus police officers; or Department for Children and Families ("DCF") authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy, a reasonable effort shall be made to notify the student's parent, guardian, or representative when students are removed from school for any reason. Parents shall not be notified by school officials when their child is taken into custody by DCF, school resource officers, campus police officers, and/or law enforcement as a result of allegations of abuse or neglect and there is reason to believe sharing the information may lead to harm of the child or others. Except as provided above and/or as specified in a court order or arrest warrant, if a student is taken into custody by a law enforcement officer, school resource officer, or campus police officer, building administrators shall make a good-faith effort to contact the student's parent or guardian. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the building administrator with any information they have regarding the child being taken into custody. School resource officers and campus police officers are expected to contact the building administrator as soon as practicable after taking a student into custody.

Discrimination against any student on the basis of race, color, national origin, sex, disability, or religion in the admission or access to, or treatment in the district's programs and activities is prohibited. (Position, address, phone number of compliance coordinator) has been designated to coordinate compliance with nondiscrimination requirements contained in Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Any incident of discrimination, including acts of harassment, shall promptly be reported for investigation and corrective action by the building principal or district compliance coordinator. Any student or employee who engages in discriminatory conduct shall be subject to disciplinary action, up to and including termination from employment or expulsion from school.

Any perceived incident of discrimination in any form shall be promptly reported to the building principal, another administrator, the counselor, another certified staff member, or the district compliance coordinator for investigation and corrective action by the building or district compliance officer. Any school employee who receives a complaint of discrimination or harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the report shall be made to the district compliance coordinator. Complaints alleging discriminatory and/or harassing conduct on the part of the superintendent shall be addressed to the board of education. Any general student complaint, not alleging an act of discrimination, shall be resolved under the district's general complaint procedures in policy KN.

Except as otherwise provided in this policy or board policies GAAC, JGEC, or KNA regarding complaints of discrimination on the basis of sex or regarding child nutrition programs, complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures.

Informal Procedures

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform

Complaints of Discrimination

JCE-2

the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

Formal Complaint Procedures

- A formal complaint shall be filed in writing and contain the name and address of the person filing the complaint. The complaint shall briefly describe the alleged violation. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved through the informal procedures described herein, the building principal may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board may appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board or the superintendent. The investigation shall be informal but thorough. The complainant and the respondent will be afforded an opportunity to submit written or oral evidence relevant to the complaint and to provide names of potential witnesses who may have useful information.
- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and the respondent within 30 days after the filing of the complaint. If the investigator anticipates a determination will not be issued within 30 days after the filing of the complaint, the investigator shall provide written notification to the parties including an anticipated deadline

Complaints of Discrimination

JCE-3

for completion. In no event, shall the issuance of the written determination be delayed longer than 10 days from the conclusion of the investigation.

- If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.
- If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and state law will be followed.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

Formal Complaint Appeal

- The complainant or respondent may appeal the determination of the complaint.
- Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board or the superintendent, or by the board itself.
- The request to appeal the resolution shall be made within 20 days after the date of the written determination of the complaint at the lower level.
- The appeal officer shall review the evidence gathered by the investigator at the lower level and the investigator's report and shall afford the complainant and the respondent an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed.
- The appeal officer will issue a written determination of the complaint's validity on appeal and a description of its resolution within 30 days after the appeal is filed.

The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education or the Kansas Human Rights Commission.

- A student who has been suspended or expelled shall be notified of the day the student can return to school.
- If the suspension or expulsion is not related to a weapons violation, the principal may establish appropriate requirements relating to the student's future behavior at school and may place the student on probation. (See JDC)

Suspension and Expulsion Procedures

JDD-3

- If the expulsion is related to a weapons violation the superintendent may establish appropriate requirements relating to the student's future behavior at school and may place the student on probation if the student is allowed to return. (See EBC, JCDBB and JDC)

Any student noted by a physician, or the school nurse, or local health officer as having a communicable disease may be excluded from school for the duration of the illness. The student will be readmitted to regular classes upon termination of the illness, as authorized by the student's physician, the local health officer, or after the expiration of any period of isolation or quarantine.

The board reserves the right to require a written statement from the student's physician or local health officer indicating that the student is free from all symptoms of the disease.

If a student is absent from regular classes for more than three consecutive days or the principal has been notified that a student has or is suspected of having a communicable disease, the principal shall determine whether a release shall be obtained from the student's physician or local health department before the student reenters school.

Decisions regarding the type of education and the setting for provision of educational services for a student with a communicable disease shall be based on the child's medical condition, the child's educational needs, and the expected type of interaction with others in the educational setting. Final decisions will be made by school administration after receiving input from the student's physician, public health personnel, the student's parent or guardian, and personnel associated with the proposed care or educational setting.

Health Screenings

JGCD

Vision, hearing, and dental screenings will be conducted in the district as part of the overall health services program. Such screenings will be administered in accordance with state law. When appropriate, other screenings deemed beneficial to students may be performed in the school health program.

When these screenings cannot be performed by district staff, the board authorizes the superintendent to identify healthcare service providers to provide them. Such healthcare service providers shall be required to enter into a contract with the district prior to providing any screenings or other services to students in the school setting.

Vision Screenings

Basic vision screenings shall be provided to students without charge according to the following schedule:

- Annually for every child participating in IDEA part B programs;
- At least once each school year for students in kindergarten and grades one, two, three, five, seven, and ten;
- Within the first year of enrollment in the district;
- Upon request by the parent or guardian of a student enrolled in an accredited nonpublic school who resides in the school district.

These basic vision screenings shall be performed by a vision screener designated by the board, who shall follow current state vision screening guidelines for performing the screenings. The results of the screening and, if necessary, referral for an examination by an ophthalmologist or optometrist shall be reported to the parents or guardians of the student. Any referral shall not show a preference in favor of any particular ophthalmologist or optometrist to provide an additional examination.

While not part of the board provided vision screening program, each student needing assistance in achieving mastery of basic reading, writing, and mathematics skills shall be encouraged to obtain an eye examination by an optometrist or ophthalmologist to determine if the student suffers from conditions impairing the ability to read. Expense for such an examination, if not reimbursed through Medicaid, private insurance, or any other governmental or private program, shall be the responsibility of the student's parent or guardian.

Hearing Screening

Each year hearing screening procedures will be conducted for students in their first year of school attendance in the district. Such procedures will be provided for other students at a frequency of not

less than once every three years unless otherwise specified by state law. Students known to have hearing difficulties and students referred by teachers, parents, and/or physicians will be screened regardless of grade level.

Under certain conditions, hearing screening services are provided for students residing within district boundaries who are enrolled in accredited non-public schools. These services are coordinated between the administration of the accredited nonpublic school and district administration and require a request from the student's parent or guardian. Implementation of the program for nonpublic school students follows the same guidelines as for district students.

The results of the test and, if necessary, the desirability of examinations by a qualified physician shall be reported to the parents or guardians of students screened.

Dental Screenings

Free dental inspections will be provided to students annually, planned for by designated school staff, and conducted by appropriate dental care providers. Students presenting a certificate from a legally qualified dentist providing that a dental examination was completed in the three months prior to the school dental inspection need not be provided with an inspection.

A certificate of the result of a school dental inspection, together with suggestions of requirements for the curing of any defects found, shall be made by the dental care provider making such inspection. One copy of this certificate is to be furnished to the child examined, and another will be filed with the clerk of the board. No dental work other than the inspection and provision of the certificate shall be performed by the examining dental care provider without the consent of the parents or guardian of the child.

Selected Screenings

Other screening procedures may be deemed appropriate and beneficial to students. Designated staff will assist in the planning and implementation of other screening programs following standard procedures.

Screening results and referrals, when necessary, will be communicated to parents.

In accordance with state law, the parent or guardian of any child entering school for the first time shall be informed of the availability of sickle cell screening and of the location of the nearest facility providing blood tests for sickle cell trait and sickle cell anemia.

JGEC Sexual Harassment (See GAAC, GAAD, GAF, JDDC and KN) JGEC

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates and is prohibited by Title IX from engaging in such discrimination. Discrimination on the basis of sex, including sexual harassment, will not be tolerated in the school district. Discrimination on the basis of sex of employees or students of the district in any district education program or activity is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment shall include conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse of a sexual nature; pressure for sexual activity; repeated remarks to a person with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extracurricular activities, etc.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of sexual harassment will be promptly investigated and resolved. Any person may make a verbal or written report of sex discrimination by any means and at any time.

USD 432 Superintendent, Title IX Coordinator has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator; to the Assistant Secretary for Civil Rights at the U.S. Department of Education, Office of Civil Rights, 400 Maryland Avenue, SW, Washington D.C. 20202-1100, (800)421-3481, or at OCR@ed.gov; or both.

Response to Harassment Complaints

The district takes all reports of sexual harassment seriously and will respond meaningfully to every report of discrimination based on sex, including sexual harassment, of which the district has actual knowledge. Any students who believe that he or she has been subjected to sexual harassment should report the alleged harassment to the building principal, another administrator, the guidance counselor, the Title IX Coordinator, or another licensed staff member. All employees receiving reports of sexual harassment from a student shall notify the Title IX Coordinator.

Definitions

The following definitions apply to the district in responding to complaints of sexual discrimination including sexual harassment as defined by Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Act Against Discrimination.

The “complainant” means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

“Dating violence” means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

The “decision-maker” reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and their representatives to

prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

“Domestic violence” includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person’s acts by Kansas or applicable federal law.

A “formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The “investigator” is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

A “respondent” is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

“Sexual assault” means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

“Stalking” means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

The “Title IX Coordinator” is the individual designated at the district level who has responsibility to coordinate compliance with Title IX of the Edu

cation Amendments of 1972, Title VII of the Civil Rights Act of 1964 regarding discrimination on the basis of sex, and the Kansas Act Against Discrimination. The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to their immediate supervisor, building administrator, or Title IX

Coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate district officials may face disciplinary action. District officials who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness, and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

If discrimination or harassment has occurred, the district will take prompt, remedial action to stop it and prevent its reoccurrence.

The Title IX Coordinator shall promptly respond in a meaningful way to any reports of sexual discrimination including sexual harassment of which the district has actual knowledge as follows:

- Contact the complainant within 10 business days and discuss the availability of supportive measures, with or without the filing of a formal complaint, and consider the complainant's wishes as to supportive measures; and
- Inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Supportive Measures

The district will treat the complainant and respondent equitably by offering supportive measures. These non-disciplinary and non-punitive measures will be offered as appropriate, as reasonably available, and without cost to the complainant or the respondent. Supportive measures are designed to restore or preserve equal access to the education program or activity without unreasonably burdening the other party. "Supportive Measures" shall include, but not be limited to, measures designed to protect the safety of all parties, to protect the district's educational environment, or to deter sexual harassment. These measures may include counseling, extensions of deadlines or course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring, and other similar measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Formal Complaint

No investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

A formal complaint is a document filed by the complainant or signed by the Title IX Coordinator alleging sexual harassment and requesting an investigation. The procedures for filing a formal complaint are as follows:

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.
- An investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by a qualified individual designated by the Title IX Coordinator or another individual appointed by the board. The investigation shall be thorough. All interested persons, including the complainant and the respondent, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

Formal Complaint Notice Requirements

Upon filing of a formal complaint, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- An explanation of the district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advi-

sors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed; or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following bases:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result.

The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give an opportunity to submit further evidence in writing;

- Not have a conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process, resume the investigation of the formal complaint, and be informed of any consequences resulting from participating in the informal resolution process;

- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies, including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or

grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination, including sexual harassment, is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility shall be published in student handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

6/21

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color, or national origin ("racial harassment") or on the basis of disability ("disability harassment") shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district in any district education program or activity is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events.

It shall be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Prohibited conduct under this policy includes racially or disability-motivated conduct which:

- Affords a student different treatment, solely on the basis of race, color, national origin, or disability, in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;
- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or

- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student's academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student

conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing

involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually, if applicable.

Administration of Emergency Opioid Antagonists

JGFGA

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration (“FDA”) to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, distribute, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to prioritize student health and safety in its schools, programs, and activities, the board authorizes the district to obtain, store, and administer naloxone, Narcan, and/or other opioid antagonists for emergency use in its schools. The school nurse or other properly trained staff member may administer such medication in emergency situations. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, naloxone and Narcan, by members of district staff.

Training

If obtaining the emergency opioid antagonist through a pharmacy, the providing pharmacy of the emergency opioid antagonist (hereafter “the product”) shall provide written education and training materials to the individual to whom the product is dispensed. First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations. In addition, all district staff members with access to emergency opioid antagonists shall be trained, at a minimum, on the following:

- Techniques to recognize signs of an opioid overdose;
- Standards and procedures to store, distribute, and administer an emergency opioid antagonist;
- Emergency follow-up procedures, including the requirement to summon emergency ambulance services either immediately before or immediately after administering an emergency opioid antagonist to a patient; and
- Inventory requirements and reporting any administration of an emergency opioid antagonist to the school nurse or another healthcare provider.

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent’s designee, so that they may be trained in

Administration of Emergency Opioid Antagonists

JGFGA-2

proper protocol and included in the school or district's crisis response plan regarding potential opioid overdose.

Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent's designee.
- The product will be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product's safekeeping shall check, document, and track the expiration date found on the box and replace the product once it has expired.

Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions.

Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.
- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

Protection from Liability

Any patient, bystander, school nurse, a first responder, or technician operating under a first responder agency, who, in good faith and with reasonable care, receives and administers an emergency opioid antagonist pursuant to this policy to a person experiencing a suspected opioid overdose shall not, by an act or omission, be subject to civil liability or criminal prosecution, unless personal injury results from the gross negligence or willful or wanton misconduct in the administration of the emergency opioid antagonist.

Supervision of Medications

JGFGFB

(See JGFGBA)

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized. No medications shall be dispensed or administered if prohibited by state law.

In certain circumstances when medication is necessary for the student to remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a non-prescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school's cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering it to determine that it appears to be in the original container, to be properly labeled, and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.

Any changes in type of drugs, dosage, and/or time of administration should be accompanied by updated physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to the parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

Supervision of Medications

JGFGB-2

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.

In the administration of medication, the school employee shall not be deemed to have assumed any legal responsibility other than acting as a duly authorized employee of the school district.
